ABOUT ME

I am a Computer Science student and a graduate of a technical IT school with a in Microsoft cloud technologies, awarded for outstanding academic performance. I have practical experience in front-end development using technologies such as HTML, CSS, JavaScript, and WordPress, as well as version control with Git. I also have a solid understanding of back-end basics with PHP and MySQL.

I have completed over five major projects, including responsive websites, database integration, and UI/UX-focused interfaces. In 2023, I placed 6th in the nationwide "CyberSkiller Challenge." I hold certifications including Microsoft Azure Fundamentals (AZ-900), MTA in networking and servers, Adobe Photoshop, and AutoDesk Inventor.

I am passionate about creating intuitive and user-friendly web experiences. I continuously expand my skills through courses and training in front-end technologies, cloud solutions, and modern development trends. I am highly motivated, independent, and always eager to learn and take on new challenges.
